

Warehousing

With our extensive facilities that have been commissioned since 1999 and more planned, our expansion has served to strengthen rather than compromise our reputation for service.

We offer massive capacity but with scalability, we have invested in automation and in all the latest handling technologies.

Whether you require secure 24 hour electronic access to your stock or bulk storage facilities or a complete turnkey solution we have the answers.

Our Customers in a broad range of industry sectors benefit from our expertise in the following areas:

- Dedicated locations within a 1 mile radius
- Situated close to motorway networks
- Goods receipt - packet, pallet, or container
- Insured - audited and consistent with UKWA standards
- Advanced stock auditing
- Bulk, palletised or loose stock
- Reverse logistics
- Full returns management
- Quarantine locations
- Third party collections and distribution
- Computerised stock control
- Computerised order picking
- On line shipping and receiving reports
